SUMMARY

Cybersecurity student with practical experience in IT support, computer repair, system troubleshooting, and customer-facing technical services. Managed a computer repair shop independently, handling hardware and software diagnostics, system installations and upgrades, networking issues, customer consultations, repairs, inventory, and daily operations.

PROFESSIONAL EXPERIENCE

Freelance Help Desk

Ypsilanti, MI | 2025 - Present

- Assisted users with software installation, configuration, updates, and troubleshooting.
- Set up and configured computers, workstations, user accounts, peripherals, and other IT equipment.
- Supported users with password resets, account access, system configuration, and basic security-related issues.
- Assisted with network connectivity issues, including Wi-Fi, Ethernet, printers, and basic router/network troubleshooting.

Manager/Supervisor

Sunset Computers, Ypsilanti, MI | 2023 – 2025

- Managed daily operations of a computer repair shop independently, overseeing customer service, repairs, sales, inventory, and administrative responsibilities.
- Performed hardware installations, upgrades, replacements, and system builds, including RAM, storage drives, power supplies, and other components.
- Installed, configured, and troubleshoot Windows and MAC operating systems, applications, drivers, and peripheral devices.
- Performed data transfers, system backups, software installations, and general computer maintenance while prioritizing customer data security.
